Adobe® Creative Cloud™ for teams

You're all on the same team. Start creating that way.

Welcome to Creative Cloud for teams. Keep your team on the same page with the entire collection of Creative Cloud apps, services, and business features. Share files, capture feedback, and keep track of versions—all in one place. With Creative Cloud for teams, you can maximize your budget and leverage centralized administrative tools that make it easy for IT to purchase, deploy, and manage Creative Cloud along with the changing needs of your team.

All the tools you love. Totally re-imagined. All-new desktop versions of your favorite creative tools and services. Immediate access to new features and updates. And that's just the beginning. Because now, your favorite applications, including Adobe Photoshop CC, have been rebuilt to support a seamless creative process. With Creative Cloud for teams, everything you need to create intuitively and collaboratively is included.

License management. Creative Cloud for teams makes it fast, simple, and affordable to add or reassign licenses. So you can scale with your workload while keeping everyone in sync. Plus use administrative tools to centrally deploy, and simplify how you manage creative tools across your organization.

Cloud storage. You get 100GB with Creative Cloud for teams. Private folders let you share just the files you want. Upload new versions of your work, maintain past versions, and post comments and feedback.

Connect your work and your creative community. With Behance® now integrated with Creative Cloud, you can find inspiration, showcase your work, get feedback, and gain global exposure for your portfolio.

One-stop publishing. With Creative Cloud, creating is just the beginning because your membership includes everything you need to publish your work in immersive and engaging new ways. You can build and publish websites, mobile sites, iPad apps, and other content for any medium or device.

Expert training and support. Sharpen your skills and master new tools with a growing library of exclusive video tutorials from experts at Adobe and leading partner companies. Creative Cloud for teams also includes expert support—each member of your team gets two one-on-one sessions with an Adobe product expert per year.

Lower costs. You get the entire collection of Creative Cloud tools and more at a fraction of the cost, and all your updates and upgrades are included in the membership at no additional cost.

Hassle-free compliance. Your teams have immediate access to creative tools and can maximize their productivity at home and at work by being able to install their software on two machines. At the same time, reduce the risk of compliance and maintain complete IT control.

* For a complete list of applications and services, see page 2.

There's always something new in Creative Cloud for teams
