Adobe Creative Cloud for teams

Creative Cloud for teams ushers in a new era of creativity and collaboration that gives your creative team everything it needs to capture inspiration and work together to create amazing content across desktop and mobile. Creative professionals can easily accelerate their work to deliver amazing campaigns, and your business will benefit from budget predictability, easy license management and maximum control over the software.

Why Creative Cloud for teams?

Tons of new features added since CS6. And you're always up to date.
With Creative Cloud for teams, you get the latest features as soon as they're released. Since CS6 we've added over a thousand features in Creative Cloud to improve productivity, make everyday tasks easier, support the latest standards and hardware and help you create even more amazing work.

A frictionless workflow between desktop and mobile.
New Adobe mobile apps for iOS and Android extend the power of your desktop apps to your devices so you can create anywhere. Plus services like Adobe Stock and collaboration tools like Creative Cloud Libraries—powered by CreativeSync—put all the assets you need at your fingertips across desktops and mobile devices.

Lower up-front costs.
With an annual membership, you can budget more predictably, lower up-front costs and leverage volume discounts. Set your own anniversary date to align to your buying cycle, and rest assured your software will always be in compliance.

Created for evolving teams.
The Admin Console makes it easy for IT to add or reassign seats anytime with just a few clicks. Billing catches up at your next payment cycle so noncompliance is a non-issue. Deploy apps and updates your way—either handle it centrally or let users install as needed. Users can start downloading and using apps immediately.

Secure cloud storage and team collaboration.
Get up to 100GB per user of secure cloud-based storage to collaborate and share files and folders—all accessible from your desktop, smartphone or tablet. Maintain version control, stay on top of changes and collaborate more seamlessly thanks to CreativeSync technology, which keeps everything connected.

Expert help and training.
With access to hundreds of video tutorials plus exclusive phone access to Adobe product experts, creative teams can quickly learn new skills and solve workflow issues. Plus IT now has access to advanced 24/7 tech support—including a dedicated phone line for Creative Cloud for teams admins—to help deployments run smoothly.
